NOTE: The webinar software we use limits us to 1000 session attendees. Each session will be FULL TO CAPACITY, so make sure to log onto the call 20 minutes early to avoid being locked out!

Did you notice the fine print above?

EVERY single person in our small group of 'beta testers' made money with this never-before-seen system, including men and women from their early 20's to their 60s from all over the world. In just 2 months, our small group of beta testers made millions of dollars with these 3 simple steps we're going to reveal to you today!

We're very excited to share this with you, and we hope you've signed up for one of our special online coaching sessions, because you will definitely not want to miss this!

Now let's get started!

The Wonder of A.I. Powered Funnels

In this special report, you'll discover how to make up to \$31,806 per day (or more) with A.I. Powered Funnels...where A.I. Robots do 90% of the work for you.

Most people overcomplicate the process of making money online, but THIS new system couldn't possibly be any simpler:

- You do NOT need Facebook or Instagram
- You do NOT need to be a creative person
- You do NOT need an ounce of technical ability
- You do NOT need to create any products
- You do NOT need to have an online store
- You do NOT need an email list or followers
- You do NOT need to work for months & months to see results
- And you do NOT need to worry about customer support or fulfillment

Does that sound too good to be true?

Well, it's actually based on a proven business model that has made our students over \$64 million in the last 5 years...with 1 primary difference...
90% of the work is done for you by A.I. Robots!

...and you don't even have to be Tony Stark to take advantage of it!

In fact, you don't need to be technical at all!

This new approach means ALL the heavy lifting is done for you...isn't technology great?

NOBODY Is Doing This Yet...It Is A Wide-Open Blue Ocean Business Model!

There are 3 secrets that make this new strategy different than anything you've ever seen before:

- **SECRET #1: Untapped, Highly Profitable A.I. Powered Traffic!**
- **SECRET #2: A.I. Powered Money Machine!**
- **SECRET #3: A.I. Automated Optimization to Scale to the Moon!**

This is your opportunity to get in on the ground floor of something breathtakingly simple, powerful, and profitable!

This system, in a very short time, has already changed the lives of the few people who have been lucky enough to see it. So I urge you to read through this entire report and take it very seriously, because it has the power to change your life...

So, let's jump in and see how it works!

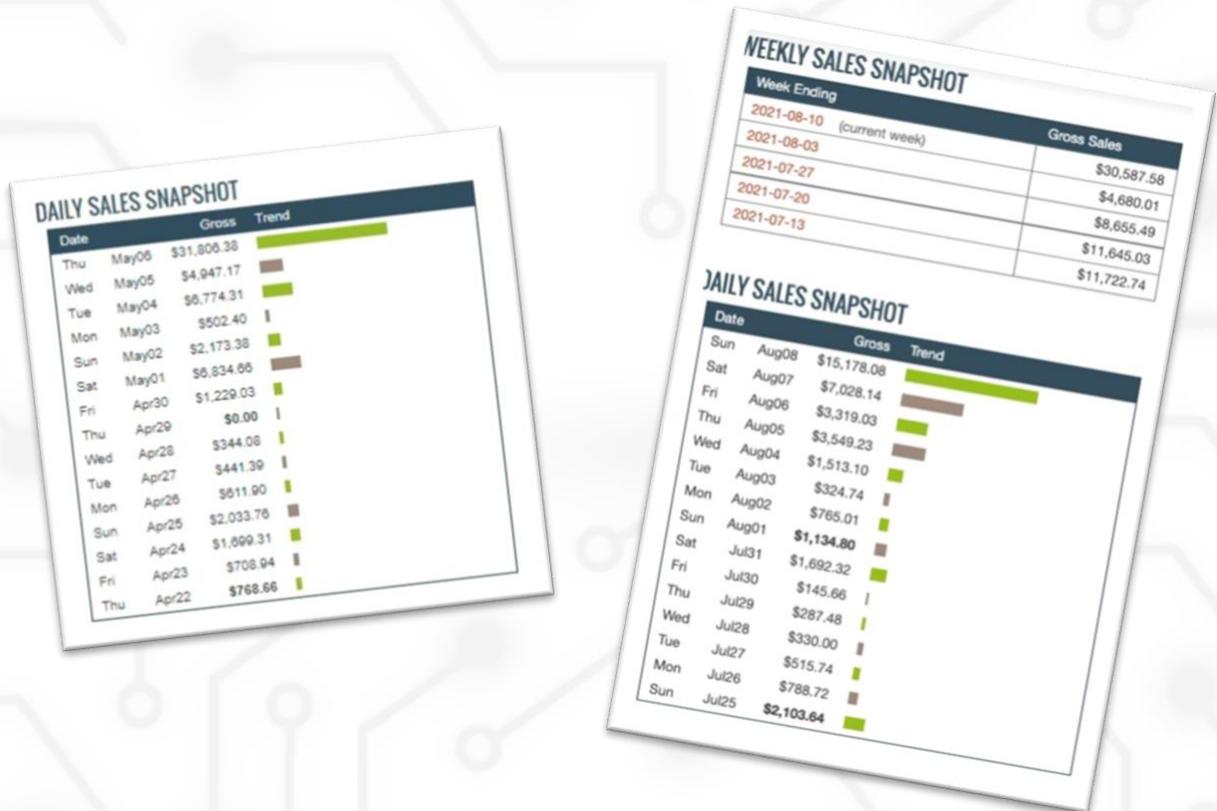

The 30,000 Foot View...

To make sure we don't overwhelm you, in this report we will be covering the 30,000-foot view of our never-before-seen system. This overview is going to be very powerful!

However, we will be going into more detail on our limited LIVE online coaching sessions, so I urge you to register for one of the limited seats right now:

[Click here to register for one of our live coaching sessions](#)

Here's a sneak peak of the kind of results we are seeing:

These are the results of just a few of our small group of 'beta testers'...\$31,806 and \$15,178 days in a very short time!

I should add these were complete beginners without any special skills or experience.

We'll dive into the whole 3-step system soon, but first let me give you some background...

It All Started Back In 2015...

If you don't know us already, my name is Rob Jones, and my business partner is Gerry Cramer. I've been lucky enough to make money online and enjoy that freedom for over a decade...and Gerry for more than 2 decades.

Back in 2015, Gerry discovered a simple system for making money online, and in 2016, we started teaching students how to do it too. It was an amazing success. Here we are with our students who were making \$500 to \$50,000 per day:

Here is a letter from one Clickbank, one network that we use to make money:

As you can see, the Vice President of Clickbank has certified that our students have made over \$64 million.

Better Than \$64 Million?!?

The results of our students with Gerry's system over the last few years have been astonishing, but I can honestly say this new system will blow these results out of the water.

It all started a few months ago when one of our most successful students, Chris Reader, reached out to us with some rather unbelievable news.

He told us about another one of our students, Keegan, who had adapted our system in a way that made it significantly easier and more powerful...all thanks to the power of Artificial Intelligence (A.I.)!

When I talk about A.I. I'm not talking about the Skynet and Terminator coming to take over the world.

I'm talking about A.I. systems that are focused on doing one task amazingly well and using machine learning technology to get better and better by the day.

Many A.I. systems are significantly smarter and faster than humans at one specific task, and it is becoming increasingly easier for regular people to take advantage of this...if you know how.

Keegan had even shown another student, Ilyo, how to run this adapted new system.

Ilyo's Success Story

Ilyo is an immigrant from Afghanistan. After a difficult childhood, he came to the United States in 2007 with his family thanks to a UN Refugees Program.

English was his 3rd language. He was living in Boise, Idaho with his wife, parents and sister.

Keegan showed Ilyo how to run this method, and Ilyo was able to get up to making \$31,806 in a single day at an amazing speed

We Knew We Had to Meet Keegan!

When we heard about Keegan & Ilyo's results, we asked Chris to introduce us to Keegan.

Keegan is a young, soft spoken, clever guy from West Virginia. He's also very kind and helpful.

Keegan had been using this new A.I. powered funnel to make upwards of \$30k per day.

And even better, he had not had a single negative day in over 6 months, as you can see from his impressive results...

When we met and spoke to Keegan, we hit it off immediately and after talking, we all decided we needed to see if this new method could be replicated by ordinary, everyday people.

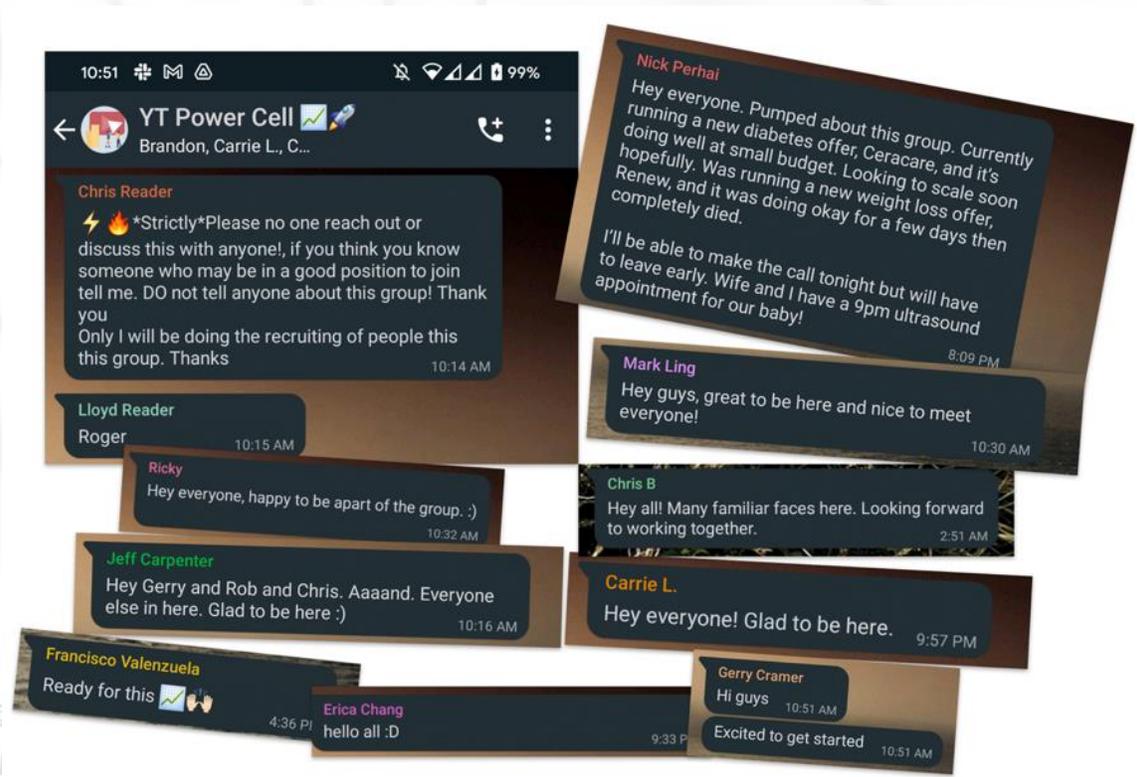

So, we started to formulate a plan...

The Birth of the “Power Cell”

We had the idea of getting a group of ‘beta testers’ together to see if regular people could have the same kind of results as Keegan and Ilyo.

We called it our “Power Cell.”

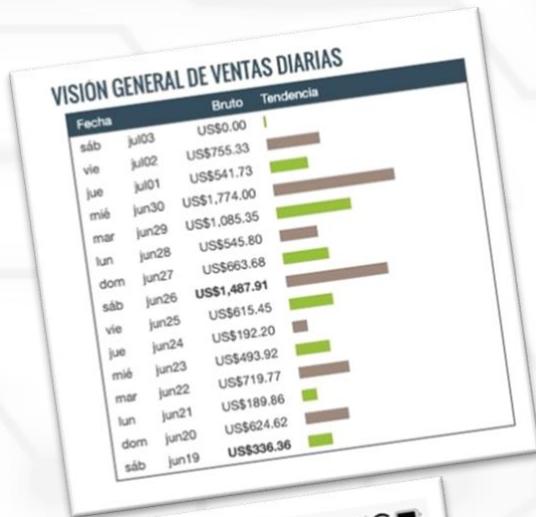

We got together a small group of 15 volunteers, and kicked things off, and as you can see, everybody was excited to get started...

We were all excited for the possibilities, but we never could have imagined what would happen next.

Francisco's Results - \$15k Days!

Francisco lives in Venezuela where the average monthly income is \$500. Even with limited cash, he got his first sales, and over 3 months got up to \$15,000 days! Now he says he makes more than his parents' combined yearly income in one day!

 I wanted to share a big win with you guys, since everyone here has helped me in some sort of way.
 It's crazy to think that almost 6 months ago, what I'm doing right now seems too far and almost impossible and now I'm near to achieve my 'yearly' goal with affiliate marketing.
 What has worked very well for me it's really committed to this business model and take daily actions no matter where I'm so I gain confidence and don't lose momentum even if everything is going bad.
 Yesterday I hit my biggest day so far and I think I made more profit in a day than my whole 3 first years on business.
 So thanks everyone and I will start thinking bigger and trying to catch up Keegan with those 60k/days because it's possible, and the crazy

 Hey guys yesterday I achieved a pretty important milestone for myself and wanted to share it with you guys. It was \$1k profit so it feels good. My biggest take-outs on this campaign that has been running for 10 days and only had 1 day negative and I think it was because Google couldn't process one payment is that I keep it very simple just test 3 videos in 1 campaign and I follow what Keegan says in terms of not touching the t.cpa much and it has been working pretty decent. So thanks everyone for sharing your results and providing advice this is an amazing group.

Gabe's Results

Gabe is a married father of 6 from Utah. The most important thing to him is his family.

Gabe struggled in the beginning with overcomplicating the system. But after making a few mistakes, he realized the most effective approach is Keegan's proven simple method. When he finally gave into the simple method, his results skyrocketed.

Gabe hit his first \$1,000+ profit day in August, and he was very excited to share his results:

Lloyd's Results

Lloyd is in his late 20s. He came from the sales industry, which was very stressful for him.

In the beta testers group he was able to have success relatively quickly and as a result he says he feels free for the first time in his life. Now he's making 10s of thousands of dollars each month from home, and he couldn't be any happier.

Ryan's Results

Ryan was a certified financial planner for 10 years, helping other people plan their finances, but in all that time he never felt financially free. He became interested in online marketing as a way to get out of the rat race, but he had never been able to make it work.

All of that changed a few weeks after joining the beta testers group...when he started making over \$500 profit per day!

The screenshot shows a Facebook post from a group named "YT Power Cell". The post is from a user named "Ryan Duey" and is dated "Jul 8, 2021 - Jul 8, 2021". It includes a screenshot of a Facebook Ads performance report. The report shows the following data:

Just 2 weeks after his first \$1,000 breakthrough day, he had already done \$40,000!

Now, everything has changed. Ryan finally feels like he has the ability and knowledge to make as much money as he wants to...and he's excited because one of his biggest goals is to "be one of those dads that never misses his kid's passions like baseball games or ballet recitals...to never miss out or sacrifice for work over family life." And now he will be able to do just that.

His goal for the next 12 months is to average a minimum of \$1k per day profit and ultimately average over \$2,800 per day to make \$1 million per year.

Unbelievable Results from EVERYBODY in Our Power Cell Group of “Beta Testers!”

I could add pages and pages of additional results from our other “beta testers,” but I think you get the picture.

In my 10+ years online, I have NEVER seen anything so effective as the results from the small ‘beta tester’ group.

After just a short 3 months, EVERYBODY from our initial group of ‘beta testers’ who was running Keegan’s method was having amazing results.

Listen to these crazy, unbelievable results in just 3 months:

- All 15 beta testers made money.
- 100% of the group (15 out of 15 people) made over \$10,000
- 13 out of 15 people made over \$20,000
- 7 out of 15 people made over \$50,000
- 4 out of 15 people made over \$100,000
- 1 person made \$1.5 million

NOTE – That’s excluding me, Gerry, Keegan, and Chris. We all made an awful lot of money too, but since we are a bit more experienced, I didn’t include our numbers in the totals.

Now those are gross numbers...what about profit?

Well, we asked everybody to share what their biggest profit day so far was and here were their results:

- Everybody got up to at least \$500 PROFIT per day
- 13 out of 15 got to over \$1,000 PROFIT per day
- 5 out of 15 people got to over \$2,000 PROFIT per day
- 4 out of 15 people got to over \$5,000 PROFIT per day
- 3 out of 15 people got to over \$6,000 PROFIT per day
- 2 out of 15 people got to over \$9,000 PROFIT per day
- 1 out of 15 people got to over \$23,000 PROFIT per day

To put that in perspective:

- \$500 profit per day puts you in the top 10% of income earners in America.
- \$1,000 profit per day puts you in the top 5% of income earners in America.
- \$2,000 profit per day puts you in the top 1% of income earners in America.
- \$7,700 profit per day puts you in the top 0.1% of income earners in America.

EVERY single person in the group is now in the top 10% of income earners!

86% are now in the top 5% of income earners!

40% are now in the top 1% of income earners!

And 13% of our little group are now in the top 0.1% of income earners!

That is INSANE!

And after only 3 months!?!

I can barely believe it myself.

So, let's jump into how it all works...

How Do A.I. Powered Funnels Work?

As I mentioned before, there are 3 secrets that make this new strategy different than anything you've ever seen before:

- **SECRET #1: Untapped, Highly Profitable A.I. Powered Traffic!**
- **SECRET #2: A.I. Powered Money Machine!**
- **SECRET #3: A.I. Automated Optimization to Scale to the Moon!**

Now, I'm going to jump into each secret in just a moment and explain exactly how they work, but first let's talk about...

The 7 Reasons A.I. Powered Funnels Are So Dang Powerful

- **Reason #1: It has the best benefits of most online business models without all the bad stuff.** You can be your own boss and set your own hours. You can work as much or as little as you like. You can be location independent. Yet, you don't need to be a tech expert or build out a huge business. You have almost zero overhead expenses and the simplest business model we've ever seen.
- **Reason #2: You can see results on your very first day.** Time and time again our beta testers have shown that you can see immediate results within your first 24 hours. If you follow the steps closely, without changing them up or second guessing them, there is a very good chance you can start to see profit on your very first day...and if not on your first day, then within your first few days, because the A.I. systems are so good at optimizing for you.
- **Reason #3: You can get started "on the side" of whatever you're currently doing.** This is not a labor-intensive business model. It is not a big time commitment. Because the A.I. systems do so much of the heavy lifting, you can get started in only an hour or two here and there and see results

quickly. You don't need to commit to a ton of time working on this business model to make it work. And then as the income starts to build, you can decide if you want to make this your primary source of income or just keep it as supplemental income.

- **Reason #4: You can scale up fast when you find a winner.** In many systems, there are limitations to how big or how fast you can scale up. That is not the case with this system. The sheer volume of profitable traffic and the method by which the A.I. systems automatically select the most profitable pockets of traffic for you at any scale, it's as easy as turning a dial up when you find a winner. It's literally just a few clicks of your mouse.
- **Reason #5: You don't need to be creative.** With many systems, you need to be a good copywriter or designer or good with building out websites and systems. You don't need any of that with A.I. Powered Funnels. Beta testers like Ryan, Gabe, and Greg, who typically struggle with the creative aspects of online business, were able to experience huge success with this method because it didn't require any creative ability in order to be successful.
- **Reason #6: Saturation & competition don't matter.** With this system, there is more profitable traffic out there than you can even comprehend. This is one of the very biggest traffic sources on the Internet. And the A.I. systems working for you are the best in the world at optimizing that traffic. Plus, there are countless different products that meet the criteria for this system, so you'll never have to worry about saturation or competition.
- **Reason #7: You don't have to be technical.** One of the absolute biggest reasons people fail online is because it's just too damn technical. However, with A.I. Powered Funnels, all the technical stuff is done for you. It couldn't be any simpler. If you can type and point a mouse and follow very simple, intuitive instructions, then you will be able to follow this system. You will never have to let tech issues stand in the way of your success again!

I hope you're getting excited!

Secret #1 – A.I. Powered Traffic

The lifeblood of any online business is traffic...you can't make money online without traffic.

Traffic needs to fulfill 3 purposes:

- It needs to be profitable
- It needs to be available on demand
- It needs to be scalable

For these reasons, we pay for traffic. Any source of so called “free” traffic typically does not meet these requirements.

Paid traffic is available on demand. “Free” traffic is not.

So, we buy traffic.

And for the past 5 years, we have almost exclusively bought traffic from Facebook. In prior years, Facebook always had the most profitable, scalable traffic.

But in the past year, it has become increasingly difficult to buy profitable, scalable traffic on Facebook for numerous reasons...account shutdowns, tracking difficulties (iOS 14 updates, etc).

You don't really need to know all the technical details. The bottom line is it's just a lot harder to get profitable, scalable traffic nowadays on Facebook.

But luckily there's still hope...

To understand the amazing opportunity that is available right now, you need to understand the life cycle of traffic networks...

The Traffic Network Life Cycle

Phase 1 – The Wild, Wild West Phase

When they are brand new, traffic networks are very easy to advertise on.

I call this the “Wild, Wild West” phase.

There are very few regulations. It’s easy to get a lot of profitable traffic on demand.

This is how Google was years ago, when it was the biggest new traffic source on the planet (before Facebook came along).

Phase 2 – The Crackdown

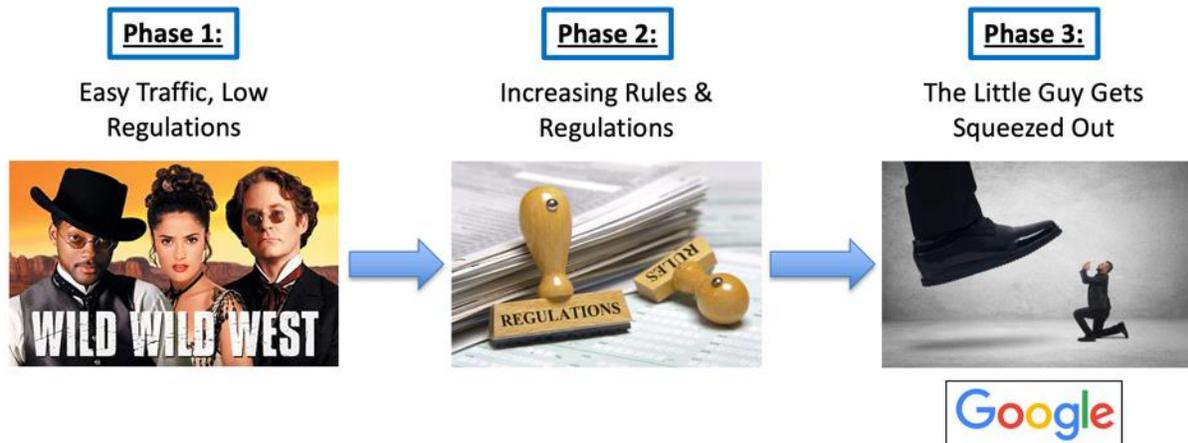

But what typically happens is as a network matures and more and more advertisers are buying traffic, they start to crack down on advertisers, and the rules and regulations start to increase. It becomes more difficult for the little guy to buy profitable, scalable traffic.

This is exactly what happened to Google...Google went into the Crackdown Phase.

Phase 3 – The Big Squeeze

The next step in the progression is what I call the Big Squeeze. At this point all the little advertisers get squeezed out of the picture, and the traffic network starts to favor the huge advertisers. Then it becomes very, very difficult for the little guy to buy profitable, scalable traffic on the network anymore.

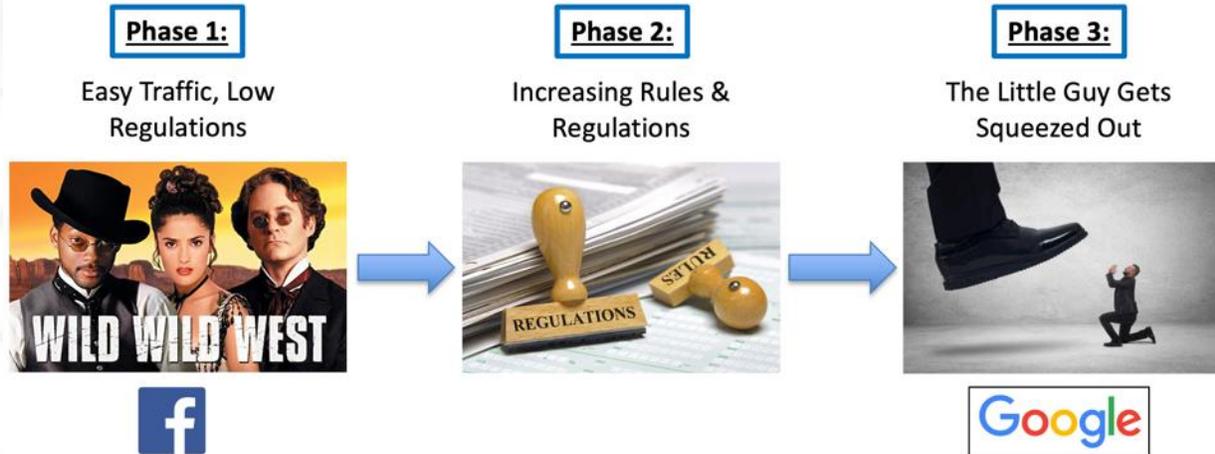

This is exactly what happened on Google.

Along Came Facebook!

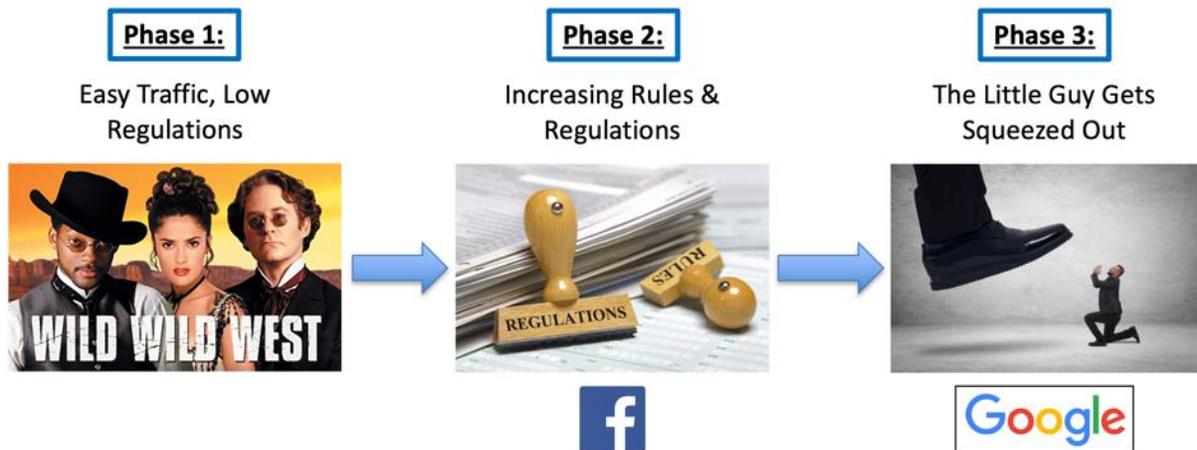

Then one day a new website came out...Facebook! And everybody was using it...which meant there was a ton of traffic!

It quickly became the easiest traffic network to buy profitable, scalable traffic!

The Wild, Wild West Phase was back!

But then a few years passed, and as more and more advertisers left Google and started advertising on Facebook, the crackdown began once again...

At this phase, you could still buy profitable, scalable traffic on Facebook, but it was getting more difficult.

Unfortunately, as the traffic cycle goes, things kept progressing until Facebook hit the BIG SQUEEZE...

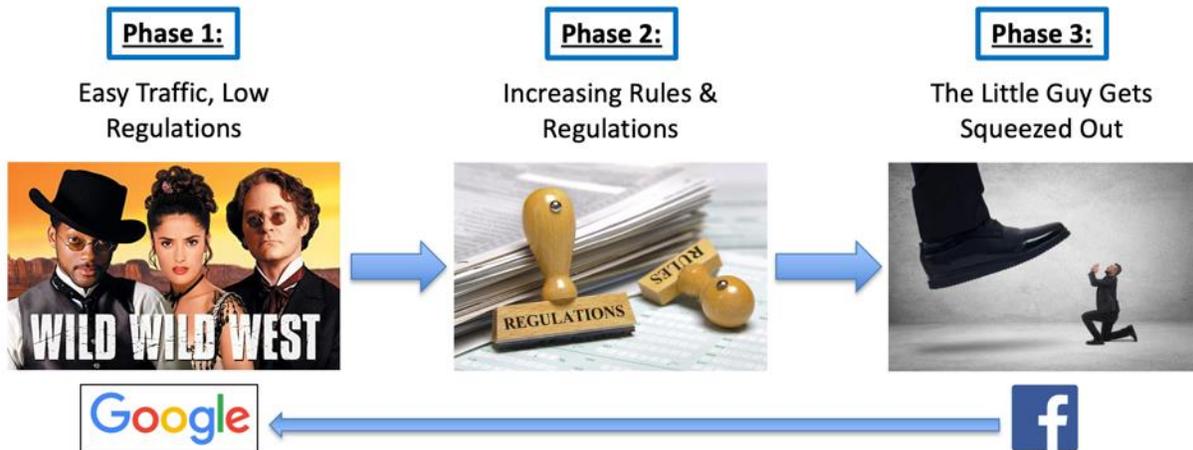

This is what was going over the past year.

It is now very, very difficult for any inexperienced or new advertiser to buy profitable, scalable traffic on Facebook. They have squeezed out the little guy.

But Then a Peculiar Thing Happened...

While everybody was advertising on Facebook, Google lost boatloads of revenue due to lost advertisers.

And as the laws of supply and demand dictate, Google had to adapt...

In order to survive, Google has gone full cycle right back to the beginning to the Wild, Wild West Phase!

Now, it is easier than ever to advertise on Google...and Google is the biggest website on the planet!

In addition, Google has one of the top A.I. engines in the world to make advertising easier than it ever was before.

But there's one more thing...

The BIGGEST Untapped Traffic Source

There is one subdivision at Google that is so massive and still untapped when it comes to advertising...

That's right...YouTube.

YouTube is the #2 website on the planet. The only website bigger is Google, and Google OWNS YouTube.

YouTube is bigger than Facebook. Facebook is #7 (and steadily dropping).

Now in the past, we never looked too closely at YouTube advertising for 2 reasons:

- Videos were too hard to make
- Google was hard to advertise on

But ALL of that has changed.

I'll get into why videos are a million times easier to make now in Secret #2.

For now, let me explain to you why Google (and more specifically YouTube) is infinitely easier to buy profitable, scalable traffic now.

There are 5 reasons:

- **Ad targeting is brain dead simple.** On YouTube ads, the most profitable ads only require you to choose a topic or simply advertise to the broad audience. It requires basically zero skill to figure out ad targeting now, and it takes about 30 seconds to set up, if you know the right settings.
- **Google does all the work for you of finding the profitable traffic.** Google is about as set-and-forget as you can get it. Google's machine learning automatically optimizes your traffic so insanely fast, we have been able to consistently be profitable on day 1 of our campaigns. And every day that we run ads, Google's extremely advanced A.I. machine learning algorithm optimizes automatically and gets more and more profitable.
- **You can advertise all kinds of stuff that you never could on Facebook.** Facebook has so many limitations on weight loss, dating, and tons of different profitable industries. Google lets you advertise practically any industry you can imagine...most importantly the most profitable ones! And it's SOOOO FAST & EASY!
- **The setup is so simple a monkey could do it.** Facebook has gotten to the point where it feels like you need a PHD to run an ad and weeks to warm up campaigns. With YouTube ads, it's just a few dead simple settings on every single ad campaign, and you're good to go. My grandmother could do this!
- **You can scale up as fast as you could ever possibly want to at the flip of a switch.** When it comes to scaling up, Facebook is as finicky as they come. You have to jump through hoops with crazy methods like horizontal scaling...spreading out over multiple ad accounts...daily spend limits...and all kinds of crazy hoops to jump through just to scale up. With YouTube ads, Google actually recommends you raise your budget practically every day! When I'm running \$20k per day budget, Google actually recommends that I raise it to \$60k per day budget! That is practically impossible to do on Facebook.

There is no faster & easier traffic network to buy profitable, scalable untapped traffic right now than YouTube ads on the Google ad network.

ANYBODY can do it, and it's so insanely simple it will blow your mind when we show you on the live training session.

Secret #2 – A.I. Profit Machine

Traffic is not enough to make money online. You also need a method to turn that traffic into CASH in your pocket.

That's where the 3-Step A.I. Powered Profit Machine comes into play.

And it's so simple, you'll be amazed!

The 3 steps are your video, your splash page and your money offer.

I'm going to go through each step and show you how amazingly simple and easy they are, thanks to A.I. and a few other tricks we have up our sleeves.

Step #1 – The Video

Videos used to be difficult to make. You needed to be creative. You needed to know how to use video software. You needed production skills, copywriting skills and a host of other things.

Not anymore. All of that has changed.

Thanks to the magic of A.I. videos can now be created with a few clicks of your mouse.

All you need is a written script.

A.I. Robots will do all of the other difficult tasks of creating videos for you.

Listen to this:

- You don't need a camera
- You don't need a microphone
- You don't need any video software on your computer
- You don't need any production skills
- You don't need to be in your videos at all

A.I. Robots now create voiceovers on videos that you can barely tell aren't human.

A.I. Robots can go out and pick out video clips for your video to play in the background for the voiceover that was created for you.

A.I. Robots can use natural language processing to sync up the voice with captions in the video and the voiceover script.

95% of the work is done for you. Literally all you have to do is copy and paste a video script into the A.I. video creator and it does all the heavy lifting for you.

And just a few manual tweaks after that to make sure everything looks good, and you press a button, and you have a video!

Again, all you need is a video script. That is the big key.

To find out how we quickly & easily create our scripts that are responsible for the insane profits you've seen from our 'beta testers' group, make sure to register for one of our upcoming LIVE coaching sessions at:

<http://GoProfit.AI/CH>

Step #2 – The Splash Page

The splash page needs to include proper sales & persuasion tactics, but this is actually super easy, because we use the same templates for every splash page.

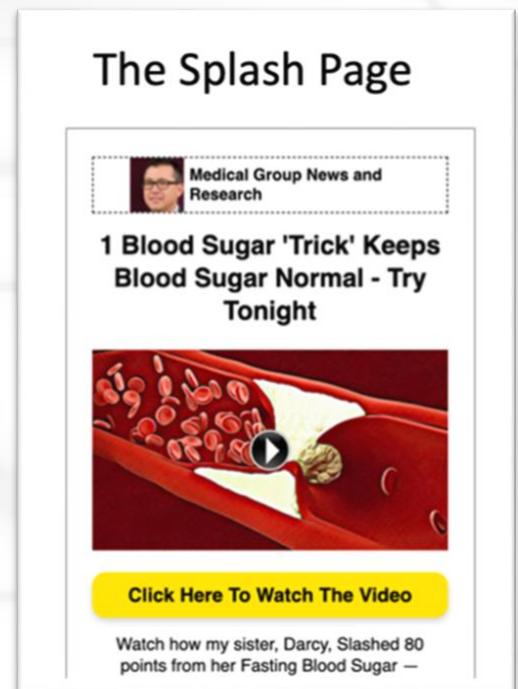

It's simply a checklist we go down to make sure our splash page checks all the boxes.

You don't need any tech skills or special abilities to create a perfect splash page. It takes about 10 minutes if you can follow simple instructions...pointing and clicking.

Honestly, if you follow the same templates we use, the splash page works perfectly fine.

Then it all just comes down to the video script.

The way we do it, anybody can create a perfect splash page in about 10 minutes.

Step #3 – The Money Offer

It's important to choose the right money offers to promote, because they will do all the hard work of turning your traffic into HARD CASH in your pocket.

The best thing you can do is know someone who knows which offers are the most profitable right now.

Because if you promote bad offers, you just won't make any money. But if you promote the right offers, you'll make a small fortune...and possibly a large one.

Come to our LIVE coaching session and you'll see exactly how you can quickly & easily find the best money making offers out there that will stuff your bank account with profits!

And that's it! That's how simple the A.I. Profit Machine is!

Even the most tech challenged buffoon can crank out an A.I. Powered Profit Machine in under an hour!

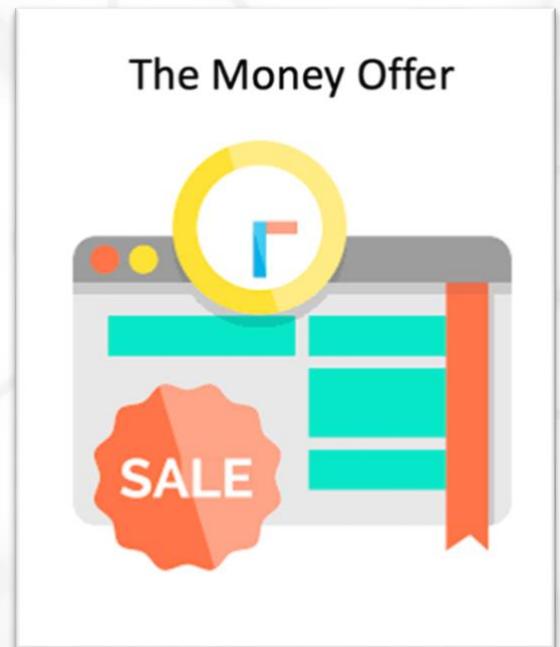

Secret #3 – A.I. Optimization & Scaling

Alright, so you've got your Profit Machine set up, and you're running traffic to it.

The next step is optimizing your campaigns and scaling up.

In the past, this was very difficult and technical. However, with advances in A.I. Machine Learning, Google makes this insanely easy.

There are basically 6 steps:

1. Create a Profit Machine (basically a splash page to an offer)
2. Create several video variations (this can be done very quickly when you know the process)
3. Let Google automatically optimize the traffic to find the profit
4. When your campaign is profitable, turn up the budget
5. If the campaign maintains the profit, turn up the budget more
6. Continue to repeat steps 4 & 5

That's the entire process of optimizing and scaling.

There are a few important rules that we follow to make it extremely effective, which we'll cover on the upcoming LIVE coaching sessions, so make sure to register for your spot now! Remember, seating is limited, be sure to show up 20 minutes early to make sure you get a spot!

Problems You Might Face If You Try to Figure This Out on Your Own

This is an amazingly simple and effective system, but the truth is it's simple because Keegan has already figured out the simplest, most effective way to streamline profits.

If you were to try and figure this out on your own, here are a few problems you might run into:

1. **You might overcomplicate the traffic process.** Google has a million options for ways to advertise on their massive network. Keegan has discovered the most effective settings, and we use them every time. If you were to try and figure out the settings yourself, chances are you would waste countless hours and money on ineffective ad campaigns.
2. **You would waste time & money on ineffective videos.** Keegan's techniques for creating videos are streamlined and simple to follow. And through months of testing, he has determined exactly what works best and what not to waste time on.

3. **You could overcomplicate the splash pages or create ineffective versions.** The templates we use have been tested like crazy to find out what works and what doesn't. It would cost hundreds of thousands of dollars of advertising and trial and error to find out what Keegan has already discovered works the best with the least amount of effort.
4. **You might choose money products that don't make you money.** One of the big keys to success is promoting the products that effectively turn your traffic into a mountain of cash. If you promote the wrong products, you will struggle to make money. But if you promote the right products, you'll be amazed at how much easier it is to generate consistent, scalable profits.
5. **You might overcomplicate the scaling process.** There are a few key indicators to know when your campaigns are ready to scale up. If you try to scale too soon, your profit will go in the toilet. However, if you know what to look for, you will be able to scale up and maintain profit as you increase your budget, so you continue to make more and more money each time.

These are just a few of the pitfalls you might run into if you tried to figure this out on your own.

Or You Could Take a BIG Shortcut
