Here's a sneak peak of the kind of results we are seeing:

These are the results of just a few of our small group of 'beta testers' ...\$90,400 and \$27,392 days in a very short time!! I should add these were complete beginners without any special skills or experience.

We'll dive into the whole 3-step system soon, but first let me give you some background...

It All Started Back In 2018...

If you don't know us already, my name is Chris Reader, and back in 2018, I was part of a small group of super affiliates making a killing running Facebook ads online.

Here I am with my mentors and others in our group who were making anywhere from \$500 to \$50,000 per day:

Here is a letter from Clickbank, one network that we use to make money:

As you can see, the Vice President of Clickbank certified that our small group had made over \$64 million.

Better Than \$64 Million?!?

The results of our group with our system over a period of a few years had been astonishing, but I can honestly say this new system I discovered absolutely blows these results out of the water.

Facebook had slowly gotten more and more difficult to make money, but along with a few friends, we discovered how to adapt our money-making system in a way that made it significantly easier and more powerful...all thanks to the power of a breakthrough new technology!

Thanks to this new technology, it suddenly became much easier for ordinary people to start making extraordinary profits right from the comfort of their homes with zero prior experience or tech skills required!

Using this breakthrough new technology, we had been able to generate upwards of \$30,000 per day.

And even better, we had not had a single negative day in over 6 months, as you can see from these impressive results...

At that point, I decided we needed to see if this new method could be replicated by ordinary, everyday people.

So, I started to formulate a plan...

The Birth of the “Power Cell”

I had this idea of getting a group of ‘beta testers’ together to see if regular people could have the same kind of results as I had.

I called it our “Power Cell.”

I got together a small group of 15 volunteers, and kicked things off, and as you can see, everybody was excited to get started...

We were all excited for the possibilities, but we never could have imagined what would happen next.

Francisco's Results - \$15k Days!

Francisco lives in Venezuela where the average monthly income is \$500. Even with limited cash, he got his first sales, and over 3 months got up to \$15,000 days! Now he says he makes more than his parents' combined yearly income in one day!

 I wanted to share a big win with you guys, since everyone here has helped me in some sort of way.
 It's crazy to think that almost 6 months ago, what I'm doing right now seems too far and almost impossible and now I'm near to achieve my 'yearly' goal with affiliate marketing.
 What has worked very well for me it's really committed to this business model and take daily actions no matter where I'm so I gain confidence and don't lose momentum even if everything is going bad.
 Yesterday I hit my biggest day so far and I think I made more profit in a day than my whole 3 first years on business.
 So thanks everyone and I will start thinking bigger and trying to catch up Keegan with those 60k/days because it's possible, and the crazy

 Hey guys yesterday I achieved a pretty important milestone for myself and wanted to share it with you guys. It was \$1k profit so it feels good. My biggest take-outs on this campaign that has been running for 10 days and only had 1 day negative and I think it was because Google couldn't process one payment is that I keep it very simple just test 3 videos in 1 campaign and I follow what Keegan says in terms of not touching the t.cpa much and it has been working pretty decent. So thanks everyone for sharing your results and providing advice this is an amazing group.

Gabe struggled in the beginning with overcomplicating the system. But after making a few mistakes, he realized the most effective approach is our proven simple method. When he finally gave into the simple method, his results skyrocketed.

Gabe hit his first \$1,000+ profit day in August, and he was very excited to share his results:

In that time, his baby girl was born, and he was then able to take some time off to spend with new family, and he couldn't be happier!

Greg's Results

Unbelievable Results from EVERYBODY in Our Power Cell Group of “Beta Testers!”

I could add pages and pages of additional results from our first small group “beta testers,” but I think you get the picture.

In my 10+ years online, I had NEVER seen anything so effective as the results from the first small ‘beta tester’ group.

After just a short 3 months, EVERYBODY from our initial group of ‘beta testers’ who was running our method was having amazing results.

Listen to these crazy, unbelievable results in just 3 months:

- All 15 beta testers made money.
- 100% of the group (15 out of 15 people) made over \$10,000
- 13 out of 15 people made over \$20,000
- 7 out of 15 people made over \$50,000
- 4 out of 15 people made over \$100,000
- 1 person made \$1.5 million

NOTE – That’s excluding my own results. I made an awful lot of money too, but since I am a bit more experienced, I didn’t include my numbers in the totals.

Now those are gross numbers...what about profit?

Well, we asked everybody to share what their biggest profit day so far was and here were their results:

- Everybody got up to at least \$500 PROFIT per day
- 13 out of 15 got to over \$1,000 PROFIT per day
- 5 out of 15 people got to over \$2,000 PROFIT per day
- 4 out of 15 people got to over \$5,000 PROFIT per day
- 3 out of 15 people got to over \$6,000 PROFIT per day
- 2 out of 15 people got to over \$9,000 PROFIT per day
- 1 out of 15 people got to over \$23,000 PROFIT per day

To put that in perspective:

- \$500 profit per day puts you in the top 10% of income earners in America.
- \$1,000 profit per day puts you in the top 5% of income earners in America.
- \$2,000 profit per day puts you in the top 1% of income earners in America.
- \$7,700 profit per day puts you in the top 0.1% of income earners in America.

EVERY single person in the group is now in the top 10% of income earners!

86% are now in the top 5% of income earners!

40% are now in the top 1% of income earners!

And 13% of our little group are now in the top 0.1% of income earners!

That is INSANE!

And after only 3 months!?!

I can barely believe it myself.

But that's just the beginning...

Phase 2 – Our 2nd Beta Test Group

We were so amazed by the results of our initial small beta tester group that we decided to teach our method to a 2nd group of beta testers.

Around 2 years ago, we opened up our method to several hundred new beta testers...complete strangers from all over the world, men and women of all different ages and backgrounds.

We wanted to see if the results of our small group could be replicated by ordinary people.

But we never could have guessed what would happen next...

The Mind-Blowing, Amazing Results of Our 2nd Group of Beta Testers

Over the last 2 years, we have been contacted by dozens of our beta testers sharing bigger results than we ever imagined possible, absolutely smashing our expectations.

Results like these...

We Have Dozens & Dozens More Equally Impressive Results

This is just the tip of the iceberg. On our upcoming live coaching session, you'll see even more examples of ordinary people who transformed their lives with this amazingly simple new method driven by a powerful new technology.

Now that you're hopefully starting to get a small idea of what's truly possible with this amazing new system, let's jump into what it is and how you can get started.

How Does This New Technology Work?

As I mentioned before, there are 3 secrets that make this powerful new money making strategy different than anything you've ever seen before:

- **SECRET #1: A Simple, Accessible, Untapped & Mostly-Automated New Traffic Source Bigger Than Almost Any Other On The Planet!**
- **SECRET #2: An "Already-Optimized" Money Generating Machine That Anyone Can Use to Turn This Traffic Source Into CASH!**
- **SECRET #3: A Breakthrough New Technology That Transforms This Money Generating Machine Into a Blazing Profit INFERNO!**

Now, I'm going to jump into each secret in just a moment and explain exactly how they work, but first let's talk about...

7 Reasons This Breakthrough New Technology Is So Dang Powerful

- **Reason #1: It has the best benefits of most online business models without all the bad stuff.** You can be your own boss and set your own

hours. You can work as much or as little as you like. You can be location independent. Yet, you don't need to be a tech expert or build out a huge business. You have almost zero overhead expenses and the simplest business model we've ever seen.

- **Reason #2: You can see results on your very first day.** Time and time again our beta testers have shown that you can see immediate results within your first 24 hours. If you follow the steps closely, without changing them up or second guessing them, there is a very good chance you can start to see profit on your very first day...and if not on your first day, then within your first few days, because this new technology is so good at optimizing profit for you.
- **Reason #3: You can get started “on the side” of whatever you’re currently doing.** This is not a labor-intensive business model. It is not a big time commitment. Because the new technology systems do so much of the heavy lifting, you can get started in only an hour or two here and there and see results quickly. You don't need to commit to a ton of time working on this business model to make it work. And then as the income starts to build, you can decide if you want to make this your primary source of income or just keep it as supplemental income.
- **Reason #4: You can scale up fast when you find a winner.** In many systems, there are limitations to how big or how fast you can scale up. That is not the case with this system. The sheer volume of profitable traffic and the method by which this powerful technology automatically selects the most profitable pockets of traffic for you at any scale, it's as easy as turning a dial up when you find a winner. It's literally just a few clicks of your mouse.
- **Reason #5: You don't need to be creative.** With many systems, you need to be a good copywriter or designer or good with building out websites and systems. You don't need any of that with this powerful new technology. Beta testers like Ryan, Gabe, and Greg and the others, who typically struggle with the creative aspects of online business, were able to experience huge success with this method because it didn't require any creative ability in order to be successful.

- **Reason #6: Saturation & competition don't matter.** With this system, there is more profitable traffic out there than you can even comprehend. This is one of the very biggest traffic sources on the Internet. And the powerful new technology working for you is the best in the world at optimizing that traffic. Plus, there are countless different offers that meet the criteria for this system, so you'll never have to worry about saturation or competition.
- **Reason #7: You don't have to be technical.** One of the absolute biggest reasons people fail online is because it's just too damn technical. However, with this powerful new technology, all the technical stuff is done for you. It couldn't be any simpler. If you can type and point a mouse and follow very simple, intuitive instructions, then you will be able to follow this system. You will never have to let tech issues stand in the way of your success again!

I hope you're getting excited!

Secret #1 – A Simple, Accessible, Untapped & Mostly-Automated New Traffic Source Bigger Than Almost Any Other on The Planet!

The lifeblood of any online business is traffic...you can't make money online without traffic.

Traffic needs to fulfill 3 purposes:

- It needs to be profitable
- It needs to be available on demand
- It needs to be scalable

For these reasons, we pay for traffic. Any source of so called “free” traffic typically does not meet these requirements.

Paid traffic is available on demand. “Free” traffic is not.

So, we buy traffic.

And for 5 years, we almost exclusively bought traffic from Facebook. In prior years, Facebook always had the most profitable, scalable traffic.

But then it became increasingly difficult to buy profitable, scalable traffic on Facebook for numerous reasons...account shutdowns, competition, tracking difficulties (iOS 14 updates, etc).

You don't really need to know all the technical details. The bottom line is it's just a lot harder to get profitable, scalable traffic nowadays on Facebook.

But luckily there's a new hope...

The BIGGEST Untapped Traffic Source

There is one subdivision at Google that is so massive and still untapped when it comes to advertising...

That's right...YouTube.

YouTube is the #2 website on the planet. The only website bigger is Google, and Google OWNS YouTube.

Now in the past, we never looked too closely at YouTube advertising for 2 reasons:

- Videos were too hard to make
- Google was hard to advertise on

But ALL of that has changed.

I'll get into why videos are a million times easier to make now in Secret #2.

For now, let me explain to you why Google (and more specifically YouTube) is infinitely easier to buy profitable, scalable traffic now.

There are 5 reasons:

- **Ad targeting is brain dead simple.** On YouTube ads, the most profitable ads only require you to choose a topic or simply advertise to the broad

audience. It requires basically zero skill to figure out ad targeting now, and it takes about 30 seconds to set up, if you know the right settings.

- **Google does all the work for you of finding the profitable traffic.** Google is about as set-and-forget as you can get it. Google's machine learning automatically optimizes your traffic so insanely fast, we have often been able to be consistently profitable right from day 1 on our winning campaigns. And every day that we run ads, Google's extremely advanced A.I. machine learning algorithm optimizes automatically and gets more and more profitable.
- **You can advertise all kinds of stuff that you never could on other networks.** Most traffic networks have so many limitations on weight loss, dating, and tons of different profitable industries. Google lets you advertise practically any industry you can imagine...most importantly the most profitable ones! And it's SOOOO FAST & EASY!
- **The setup is so simple a monkey could do it.** With YouTube ads, starting a new campaign requires just a few dead simple settings, and you're good to go. Even my grandmother could do this!
- **You can scale up as fast as you could ever possibly want to at the flip of a switch.** With a lot of traffic networks, you have to jump through hoops with crazy methods like horizontal scaling...spreading out over multiple ad accounts...daily spend limits...and all kinds of crazy hoops to jump through just to scale up. With YouTube ads, Google actually recommends you raise your budget practically every day! When I'm running \$20k per day budget, Google actually recommends that I raise it to \$60k per day budget! That is practically impossible to do on other networks.

There is no faster & easier traffic network to buy profitable, scalable untapped traffic right now than YouTube ads on the Google ad network.

ANYBODY can do it, and it's so insanely simple it will blow your mind when we show you on the live training session.

SECRET #2: An “Already-Optimized” Money Generating Machine That Anyone Can Use To Turn This Traffic Source Into CASH!

Traffic is not enough to make money online. You also need a method to turn that traffic into CASH in your pocket.

That’s where the 3-Step “Already-Optimized” Profit Machines come into play.

And it’s so simple, you’ll be amazed!

The 3 steps are a semi-automated video, a 1-page mini website and an “Already-Optimized” money machine offer you can instantly tap into.

I’m going to go through each step and show you how amazingly simple and easy they are, thanks to brand new technology and a few other tricks we have up our sleeves.

Step #1 – The Semi-Automated Video

Videos used to be difficult & time consuming to make. You needed to be creative. You needed to know how to use video software. You needed production skills, copywriting skills and a host of other things.

Not anymore. All of that has changed.

Thanks to the magic of new technology that we will share on the live training session (be sure to register now), videos can now be generated in minutes with a few clicks of your mouse.

All you need is a written script, and we have proven templates for that.

The new technology will do all the other difficult tasks of creating videos for you.

Listen to this:

- You don't need a camera
- You don't need a microphone
- You don't need any video software on your computer
- You don't need any production skills
- You don't need to be in your videos at all

A.I. Robots can now create voiceovers on videos that you can barely tell aren't human.

New technology picks out video clips for your video to play in the background for the voiceover that was created for you.

There is also natural language processing that automatically syncs up the voice with captions in the video and the voiceover script.

95% of the work is done for you. Literally all you have to do is copy and paste a video script into the semi-automated video creator and it does nearly all the heavy lifting for you.

And just a few manual tweaks after that to make sure everything looks good, and you press a button, and you have a video!

Again, all you need is a video script. That is the big key.

To find out how we quickly & easily create our scripts that are responsible for the insane profits you've seen from our 2 'beta tester' groups, make sure to register for one of our upcoming LIVE coaching sessions at:

Step #2 – The 1-Page Mini Website

The 1-page mini website needs to include proper sales & persuasion tactics, but this is actually super easy, because we use the same templates for every 1-page mini website.

It's simply a checklist we go down to make sure our 1-page mini website checks all the boxes.

You don't need any tech skills or special abilities to create a perfect 1-page mini website. It takes about 10 minutes if you can follow simple instructions...pointing and clicking.

If you follow the same templates we use, your 1-page mini website will work perfectly.

Then it all just comes down to the video script.

The way we do it, if you are able to copy and paste, then you are capable of generating a perfect 1-page mini website in about 10 minutes with no tech skills whatsoever.

Step #3 – The “Already-Optimized” Money Machine Offer

It’s important to choose the right money machine offers to promote, because they will do all the hard work of turning your traffic into HARD CASH in your pocket.

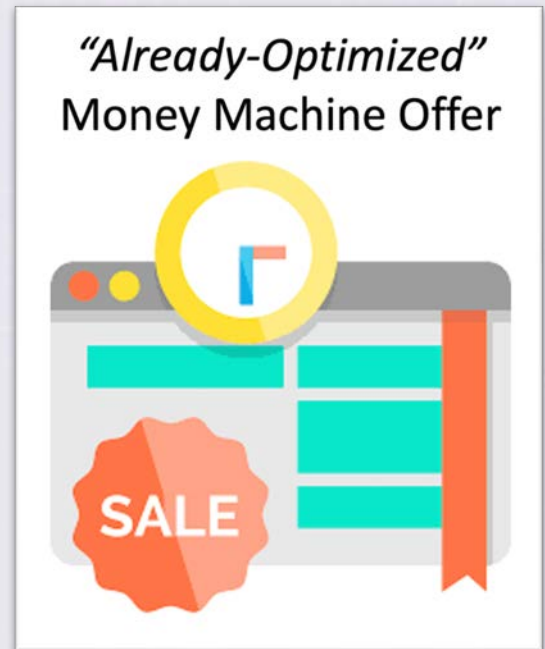

The best thing you can do is know someone who knows which offers are the most profitable right now.

Because if you promote bad offers, you just won’t make any money. But if you promote the right offers, you’ll make a small fortune...and possibly a large one.

Come to our LIVE coaching session and you’ll see exactly how you can quickly & easily find the best money making offers out there that will stuff your bank account with profits!

And that’s it! That’s how simple the 3-Step Profit Machine is!

Even the most tech challenged buffoon can crank out a Profit Machine in under an hour!

SECRET #3: A Breakthrough New Technology That Transforms This Money Generating Machine Into a Blazing Profit INFERNO!

Alright, so you've got your Profit Machine set up, and you're running traffic to it.

The next step is testing and optimizing your campaigns and scaling up.

In the past, this was very difficult and technical. However, with multiple recent massive advances in A.I. Machine Learning, this process has become simpler and easier than ever before.

For the first time ever, breakthrough A.I. technology is in the hands of the average person allowing them to:

1. Scale up without any tech skills
2. Create highly converting sales copy for videos and landing pages without any experience
3. Generate several semi-automated video variations to test (this process is mostly automated and can be repeated very quickly with no camera, no microphone and no downloadable software required)
4. Test small amounts of traffic without risking a lot to find winners quickly even at small budgets
5. Duplicate and scale up winning campaigns quickly with no prior experience

Thanks to breakthrough new technology, the entire process is dramatically faster, simpler and easier than it ever was in the past 7 years!

There are a few important rules that we follow to make it extremely effective, which we'll cover on the upcoming LIVE coaching sessions, so make sure to register for your spot now! Remember, seating is limited, be sure to show up 20 minutes early to make sure you get a spot!

Problems You Might Face If You Try to Figure This Out on Your Own

This is an amazingly simple and effective system, but the truth is it's simple because our group has already figured out the simplest, most effective way to streamline profits.

If you were to try and figure this out on your own, here are a few problems you might run into:

1. **You might overcomplicate the traffic process.** Google has a million options for ways to advertise on their massive network. We have discovered the most effective settings, and we use them every time. If you were to try and figure out the settings yourself, chances are you would waste countless hours and money on ineffective ad campaigns.
2. **You would waste time & money on ineffective videos.** Our simple techniques for creating videos are streamlined and simple to follow. And through months of testing, he has determined exactly what works best and what not to waste time on.
3. **You could overcomplicate the 1-page mini website or create ineffective versions.** The templates we use have been tested like crazy to find out what works and what doesn't. It would cost hundreds of thousands of dollars of advertising and trial and error to find out what our group has already discovered works the best with the least amount of effort.
4. **You might choose offers that don't make you money.** One of the big keys to success is promoting the offers that effectively turn your traffic into a mountain of cash. If you promote the wrong offers, you will struggle to make money. But if you promote the right offers, you'll be amazed at how much easier it is to generate consistent, scalable profits.
5. **You might overcomplicate the testing/scaling process.** There are a few key indicators to know when your campaigns are ready to scale up. If you try to scale too soon, your profit will go in the toilet. However, if you know what to look for, you'll be able to scale up and maintain profit as you increase your budget, so you continue to make more and more money each time.

These are just a few of the pitfalls you might run into if you tried to figure this out on your own.
